Pengertian VoIP

VoIP (*Voice over Internet Protocol*) adalah teknologi yang mampu melewatkan trafik suara, video dan data yang berbentuk paket melalui jaringan IP.

Keunggulan VoIP adalah :

- Biaya komunikasi yang relatif murah.
- Mudah dalam penggunaannya.
- Jaringan komunikasi yang telah tersebar luas di Luar Negeri.
- Sudah banyak yang menggunakannya.

Kekurangan VoIP adalah :

Kualitas suara tergantung pada server VoIP yang digunakan, Bandwidth atau kecepatan akses internetnya.

Peralatan yang dibutuhkan untuk Telpon VoIP

- PC yang terhubung ke Internet

- Telpon VoIP (USB Phone atau HeadShet)

Cara login

Buka Internet Explorer atau mesin pencari lainnya.
Browse di <http://www.voiprakyat.or.id>

Tampilan Utama VoIP Rakyat

Register

- Klik **Register** (free!), untuk mendapatkan Username, Password dan Nomor telepon VoIP

The image shows a user interface for a login and registration system. It features a yellow rectangular area containing two input fields: "Account ID" and "Password", each followed by a light green input box. Below these fields is a "Login" button. To the left of the yellow area, there are two blue links: "▶ Register (Free!)" and "▶ Forgot Password". The entire form area is enclosed in a dashed black border.

Register Free VoIP Number

(*) You must fill

Login Information

Email (*) : funkey_abizz@yahoo.com
