Historical Note: Skane is a southerly province of Sweden which belonged to Denmark until 1658. During the 17th century, armed Danish partisans, or "freebooters" fought against the Swedes and the time of the freebooters was warlike and bloody. Quarter was neither given nor received. The freebooters lived in caves deep in the large forests in the Northern part of Skane, called Goinge. Tourists now enjoy the region and find the freebooters province a holiday paradise with deep forests, gentle ridges, rolling plains and glittering lakes.
