

LEARN MORSE CODE in one minute !

This is a code listening tool. Print it on your printer.

Place your pencil where it says **START** and listen to morse code.
Move down and to the right every time you hear a **DIT** (a dot).
Move down and to the left every time you hear a **DAH** (a dash).

Here's an example:

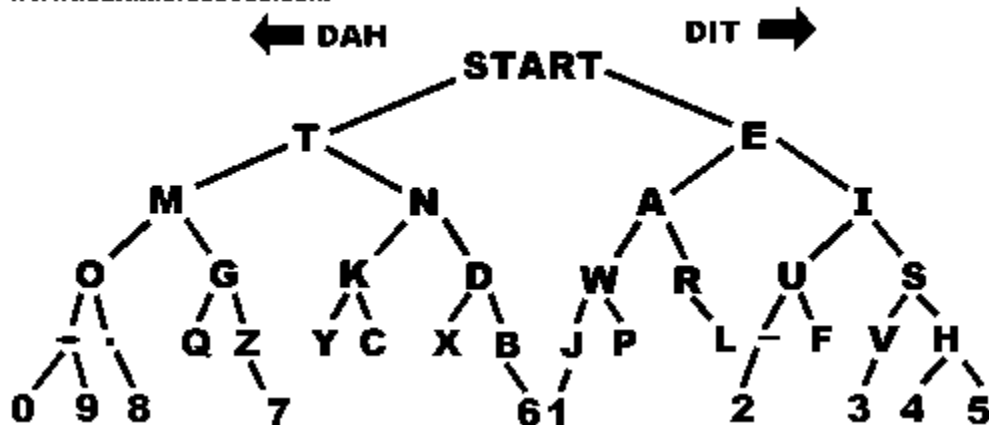

You hear **DAH DIT DIT** which is a dash then dot then dot.
You start at **START** and hear a **DAH** then move down and left to the **T** and then you hear a **DIT** so you move down and **RIGHT** to the **N** and then you hear another **DIT** so you move **DOWN** and **RIGHT** again and land on the **D**
You then write down the letter **D** on your code copy paper and jump back to **START** waiting for your next letter.

The key to learning the code is hearing it and comprehending it while you hear it.
The only way to get there is to practice 10 minutes a day.

Listen to code tapes or computer practice code while tracing out this chart and you will find yourself writing down the letters in no time at all without the aid of the chart.

The chart brings repetition together with recognition, which you don't get from any other type of code practice aid.
